## Ortner’s Syndrome in the Modern Era: A Series of 7 Cases

Published On: December 29, 2018 | Pages: 001 - 004

Author(s): AKM Monwarul Islam*, Ishrat Jahan Shimu, Kaniz Fatema Ananya, Rezvey Sultana and Saima Alam

Ortner syndrome (OS) is a rare condition characterized by hoarseness of voice in association with a cardiovascular disease. Mitral stenosis is a well-recognized cause; however, because of control of rheumatic fever and rheumatic heart disease in many parts of the world, there may be a shift of the underlying aetiology to other cardiac and non-cardiac conditions. Aorti ...
