Efficacy of Lamivudine and Dolutegravir simplification therapy compared with triple therapy in Northeast Brazil (LAMDO Study)

Published On: February 06, 2024 | Pages: 001 - 009

Author(s): Naiara Lima Fontenele*, Natália Nogueira Firmino, Sofia Rodrigues Alencar, Maria Rita Alves Rocha, Paulo Goberlândio de Barros Silva and Melissa Soares Medeiros

Background: Modern antiretroviral therapy provides numerous effective and well-tolerated treatment options for individuals living with HIV. However, due to medication tolerability, toxicity, and cost optimization associated with the emergence of highly potent drugs, dual therapy has emerged as a new therapeutic alternative for patients with viral suppression. Observat ...
